### **ABOUT THE TUTOR**

I am a tutor as well as a homeschool mom. Koinonia has been such a blessing to my family and is one of the highlights of our week. One of my favorite part of teaching is that moment when the student makes a connection and understands the concepts being taught. I graduated from Western Michigan University with a Bachelor's Degree in Education as well as a minor in Math/Science and Spanish. My experience includes teaching in Christian School, substitute teaching, homeschooling two of our children, individual tutoring as well as teaching in various children's ministries at our local church.

Other points of interest include my family and hobbies. My husband and I have been blessed with four children and one grandchild. Our family hobbies include being 4-H leaders and making maple syrup. We have been blessed to share life lessons of agriculture and animal care with others. When I find time alone, I enjoy reading and scrapbooking.

I look forward to tutoring at Koinonia where the students learn about God as they are learning the academics. Thank you for letting me partner with your family this year!
