CLASSES TUTORED

KK Robotics/STEM (Ages 9-11)
MS Beginner- Advance Lego Robotics

ABOUT TUTOR

My name is Phillip Hammerstrom, and I love STEM and Robotics! My goal is to help students learn about the many opportunities in the field of engineering through exciting hands on lessons and engaging challenges for students of all skill levels. I was introduced to LEGO robotics through classes at Koinonia, and I would love to bring the same excitement I felt then to my students.
